

LANCASTER TRAIL & BIKE WAY COALITION

The Lancaster Trail & Bike Way Coalition (LTBC) was formed in 2013 with the mission of enriching the lives of residents by advancing the development, and ensuring the maintenance, of a diverse system of trails and bike ways, all in a manner that protects the ecologically-sensitive environment.

Our Goals and Core Values

The LTBC seeks trails and bike ways that promote:

- *Accessibility* – an infrastructure of trails and bike ways that are a part of everyday life and accessible to all people of varying abilities, ages and backgrounds
- *Healthy Lifestyles* – improved fitness, health and well-being for all people through trails and bike ways that offer opportunities for physical activity, recreation, rejuvenation and preventative health care
- *Economic Vitality* – a trail system that contributes to the financial strength and attractiveness of the community by enhancing business opportunities, tourism and property values
- *Sustainable Development* – a trail system that offers alternative transportation opportunities, contributes to the health and vitality of the community, and connects people to nature
- *Best Practices* – innovative, sustainable, and technically sound guidelines that are understood and applied by decision makers in the planning, design, development and construction of high-quality trail systems
- *Experiences in the Outdoors* – responsible and enjoyable opportunities that are afforded to all trail users and enthusiasts
- *Appreciation for the Outdoors* – inspiring trail experiences that cultivate an appreciation for our natural and cultural heritage
- *Learning in the Outdoors* – formal and informal educational and interpretive opportunities that promote understanding of our sense of place
- *Connectivity* – trail systems that link natural and cultural resources within the Town and with surrounding communities

This dedicated group of trail and bike path enthusiasts has developed a town-wide vision and implementation plan for recreational trails and bike paths throughout Lancaster, and to connect these trails and paths in with other community's trail and path systems.
