New Business:

Approve Minutes from June and July Meetings – Approved Unanimously.

Trails Maintenance discussion with Noreen Piazza - Noreen representing the Trails and Bikeway Coalition came to discuss her efforts to keep trail maintenance as a priority. The town is seriously considering the possibility of purchasing a Bush Hog to assist with trail maintenance. Noreen will keep the committee informed and likely ask for support for a capital item.

Trails Committee and public programs – We will be holding off on scheduling new programs until we get a better handle on the trails and the upcoming harvest. Kevin Scherer believes he will start marking the timber for harvest in late October or early November.
